**CENTRAL PLANNING BOARD OF
NEWARK, NEW JERSEY**

February 3, 1947

We have the honor to transmit herewith our Third Annual Report. It outlines the activities of the Board from September 6, 1945, the date of our Second Report, to January 31, 1947. Our expert advisers, Harland Bartholomew and Associates, in their preliminary report, dated March 4, 1944, and entitled "The Scope of the City Plan," outlined the many subjects to be studied relative to the preparation of a Comprehensive City Plan and, under the direction of this Board, have submitted reports on the following phases of our activities, some of which have been filed with you, namely;

- (1) Scope of the City Plan
- (2) Background and Character of the City
- (3) Past, Present and Future Population
- (4) Land Use
- (5) Housing Conditions and Policy
- (6) Major Street Plan
- (7) Local Transportation
- (8) Parks, Playgrounds, Recreational Facilities and Schools
- (9) Public Buildings and Appearance of the City.

The balance of the reports needed to complete the Comprehensive Master Plan for the City of Newark; namely:

- (1) Truck, Rail, Water and Air Transportation
- (2) Zoning
- (3) Capital Expenditures Program and Administrative Policy in Practice

have been completed by our expert advisers, and are now in the hands of the Citizens' Advisory Committee for study and deliberation.

The Central Planning Board has also submitted for your consideration special reports on:

- (1) The Approaches to the New Passaic River Bridge
- (2) The Seaport and Airport
- (3) The Proposed Re-Development Project in the First Ward
- (4) Retail Shoppers Parking Survey in Downtown Newark
- (5) Employees Parking Habit Survey in Downtown Newark
- (6) The Proposed Underground Parking Garage for Military Park
- (7) The Proposed Re-Development Project for the Third Ward.

We have also, at your request, made many studies of particular city problems since the date of our last Annual Report. The results of these studies have been transmitted to the City Department immediately concerned, and covered the following subjects, in chronological order:

September 1945:

Study of proposed sale of city-owned property at 261-265 Plane Street.

Our Report recommended that the City retain ownership but offer the property for a 10-year lease with the condition that the successful bidder use the property for automobile parking purposes, and conform to certain improvements determined by the City Commission, on recommendation of the Planning Board.

Study of proposed sale of city-owned property known as the "Old Union Brewery," located at Springfield Avenue, Morris Avenue and Hunterdon Street.

Our Report recommended that the City sell this property, except for the small portion needed to extend West Kinney Street to form a direct connection to Springfield Avenue. Detailed sketches were submitted.

Study of proposed sale of city-owned property on Wickliffe Street, near Academy Street.

Our Report advised that this property be sold by the City because it would not be required for any presently planned public improvements.

October 1945:

Study of Board of Education application to the Federal Works Agency for funds to prepare contract plans and specifications for new buildings.

Our Report approved this application, and endorsement was forwarded to the proper federal agencies.

November 1945:

Study of city-owned property at 13 Jones Street.

Our Report recommended that this property be used by the Street Cleaning Department, as proposed by Director Villani.

December 1945:

Study of the Board of Education request for funds to construct a new Dayton Street School and Playground, and also for an appropriation to rehabilitate and improve certain other schools and playgrounds.

Our Report recommended the allocation of \$720,000 toward the construction of a new Dayton Street School and Playground, and further recommended that funds be allo-

cated for:

- (a) Conversion of the Webster Street School to a Junior High School
- (b) Certain improvements to Central High School
- (c) The elimination from the proposed construction and reconstruction program of the expenditure of \$400,000 for the painting and decorating of existing school buildings and the financing of same from current revenues.

January 1946:

Study of proposal by private interests to establish a seaplane landing base in the Passaic River, near Jackson Street.

Our Report recommended that the City enter into an agreement with the applicant for the establishment of the proposed seaplane base.

March 1946

Study of the proposed sale of city-owned property located at 1048-1078 and 1136-1166 Raymond Boulevard.

Our Report advised against the proposed sale, and later specific recommendations for the use of this property were detailed in our report on "Public Buildings and the City's Appearance."

May 1946:

Study on the question of the advisability of abandoning the Bridge Street Bridge.

Our Report recommended that the necessary repairs to the Bridge Street Bridge be made immediately to relieve the current traffic problem, and that negotiations be under-

taken for an extension of the permit for Bridge Street Bridge, on a temporary basis, until such time as it has been determined that the new Stickel Bridge can adequately handle inter-city traffic.

July 1946:

Study of the proposal to create a Division of Recreation in the Department of Public Affairs.

Our Report recommended that the Recreation Department remain under the jurisdiction of the Board of Education.

November 1946:

Study of site locations for the proposed Garbage Incinerator.

Our Report recommended that the best sites for the erection of the proposed incinerator was the unfilled meadow lands, located west of Doremus Avenue and South of the Passaic Valley Sewage Disposal Plant.

The Central Planning Board is pleased to report that the co-operation it has received in the above mentioned studies, from all City Departments, has been most gratifying.

Besides the regular reports and special studies previously enumerated, the Planning Board has also worked in close cooperation with the Engineering Department of the County of Essex, in preparing street and highway plans for the City of Newark; the Newark Housing Authority, on low rent housing and slum clearance; the Joint Council of Planning Boards of Essex County, in preparing plans and legislation necessary for the construction of the proposed Route 25-A Freeway; the Port of New York Authority, on general transportation

plans for the Newark metropolitan area; and the State Highway Department on plans for the construction of the new Stickel Bridge and the approaches thereto.

We have also been in direct contact with many private corporations to interest them in the plans for the construction of the Proposed Military Park Underground Parking Garage; the rehabilitation of our blighted districts and slum areas; and the construction of certain public auditoriums so necessary to the future of the City.

We are at present preparing a report on the Comprehensive Master Plan for the City of Newark for printing, and are also preparing a supplementary Map showing all of the physical improvements suggested therein, for presentation to your Body.

During the coming year, we intend to continue our studies on Streets and Traffic; Housing; Schools and Recreation; and Zoning.

In connection with our studies on Zoning, we are in the process of completing a proposed revised Zoning Ordinance for the City of Newark. Before this Zoning Ordinance can be submitted to your Board for deliberation, it will be necessary, under the State Law, to hold public hearings on the proposed changes and additions. We find that there is, at present, no division of the City Government empowered to act as a Zoning Board with power to hold such public hearings and make recommendations to your Body. The State Law permits the naming of the Central Planning Board as the Zoning Board for the City of Newark, and we strongly recommend and urge that this additional power be granted to the Central Planning Board in order to expedite the in-

troduction and passage of a new Zoning Ordinance.

We hold firmly to the blief that the Comprehensive Master Plan for the City of Newark, as prepared by our expert advisers, Harland Bartholomew and Associates; revised and recommended by the various subcommittees on the Citizens' Advisory Committee; and transmitted to your Board by us after proper deliberation; is a blueprint which, if followed, will elevate the City of Newark to a position in the social and economic affairs of this country, never before attained.

We further believe that the planned rehabilitation, re-construction and improvements are economically feasible if undertaken as outlined in our report on "Capital Expenditures and Policy of the City."

Finally, we believe that our studies of the past have proved that while rehabilitation and re-construction are necessary in Newark at the present time, it is equally important that a progressive outlook be maintained in order to bring about a greater Newark in the not too distant future.

The Central Planning Board gratefully acknowledges the advice and counsel of the Citizens' Advisory Committee in the preparation of all the Reports comprising the Comprehensive Master Plan for the City of Newark, and further wishes to compliment the members of the various Sub-Committees for their exacting studies and intelligent

recommendations on all phases of the Master Plan. Their untiring efforts and splendid achievements are truly praiseworthy, and the civic-minded spirit in which they undertook the studies of the various proposals for the improvement of our City augurs well for the future of Newark.

We further wish to thank the members of the Newark City Commission for the complete cooperation we have enjoyed at all times in our preparation of the Master Plan; and the employees and officials of the municipal Government for the aid and assistance they have so willingly given to us in our studies.

Respectfully submitted by the
CENTRAL PLANNING BOARD
OF THE CITY OF NEWARK,

Commissioner Villani: I move we recess till tomorrow morning at 10 o'clock.

Commissioner Brady: I second the motion to recess until tomorrow morning.

May Murphy: The Clerk will call the roll.

Yeas: Commissioners B r a d y ,
Ellenstein, Keenan, Villani, Mayor
Murphy.

Newark, N. J., February 11, 1947

An adjourned meeting of the Board of Commissioners was held on the above date in the Conference Room, City Hall, at 2:00 P. M., Standard Time.

Mayor Murphy: The meeting will come to order, all Commissioners being present.

Mr. Thomas Parsonnet: Gentlemen, the purpose of this resolution before us is this; since the Board of School Estimate appropriations are in excess of one and a half per cent of the assessed valuation of the city, the law requires that the City Commission concur and consent in these appropriations. For that reason we recommend this resolution, which reads as follows:

No. 4494—RESOLVED, by the Board of Commissioners of the City of Newark, that pursuant to the provisions of R. S. 18:6-53 the Board of Commissioners of the City of Newark do hereby concur in and consent to the appropriations for educational purposes as contained in the attached copies of resolutions heretofore adopted by the Board of School Estimate of the City of Newark.

Mayor Murphy: This resolution is part of the minutes, and this meeting is part of the meeting of February 10th, the adjourned meeting of February 10th.

Mr. Parsonnet: The resolutions that you have just signed as members of the Board of School Estimate, are being attached to and

made part of this resolution.

Commissioner Keenan: Couldn't we identify the resolutions in some way so that we know what resolutions they are?

Mr. Parsonnet: They are being stamped to the original resolution. That is very often done, as you recall, in approving contracts.

Mayor Murphy: The Clerk will call the roll:

Yeas: Commissioners Brady, Ellenstein, Keenan, Villani, Mayor Murphy.

Mayor Murphy: Is there any further business before the commission?

Commissioner Keenan: Mr. Mayor and members of the Commission, there was an important discussion with regard to pensions in connection with library employees, referendum, one thing or another. We were led to believe in the then explanation of the Corporation Counsel that we were taking what looked like the right step insofar as our membership on the City Commission was concerned. It has later been explained to me that that step would be to our disadvantage financially.

Mr. Parsonnet: May I say very frankly that I had the feeling that perhaps my explanation was not fully understood. I don't think that I led you to believe that it was to the detriment or to the disadvantage of the City. I merely explained the purpose of the bill that was under con-

sideration.

I explained very simply that under the present law—recently amended a couple of years ago—employees of a city government could, upon a petition signed by 500 persons, secure a referendum on the ballot of the general election permitting them to go into the state retirement system, of the city's pension system.

Commissioner Ellenstein: If successful the City would have to make up to the state the amount of money that is due an individual?

Mr. Parsonnet: That's right. That was explained I think very carefully. I don't know if you understood me or not.

Commissioner Keenan: That in time will cost us a huge sum of two million or three million dollars to pay to the state.

Mr. Parsonnet: The present bill will amend the law to say, in cities of the first class, the provision for the 500 signatures will not apply, and the only way the referendum can get on the ballot will be by a vote, through resolution form, of the City Commission.

Commissioner Ellenstein: And the implication will be in a situation like that that the city is for it, whereas it is not difficult for them to get 500 signatures on a petition.

Commissioner Keenan: Now, let us take the position of one or more municipal employees who, down through the years, had an opportunity to be members of some pension fund. They, for financial reasons and none other, never joined a pension fund into which they would have to annually pay some sum of money. They were eligible down through those years and joined no fund and paid no sums. Must the

city then pay those moneys due some 20 or 15 or 10 years back? I say to those employees, "Why should we assume that responsibility of paying into a fund and give you protection now, when you were not man enough to avail yourself of those privileges when the opportunity presented itself to you?"

I cannot see ourselves proposing a bill, or favoring a bill that would saddle upon the taxpayers this burden of a pension fund while these people got away with it all of these years, and now they are sneaking in. That is not right.

Commissioner Brady: I am absolutely opposed to it.

Mr. Parsonnet: Under the present law it is either by the 500 signatures or by the City Commission action. Now, the bill that Mr. Goff suggests would eliminate the 500 petition and leave it solely to the City Commission action.

Mr. John Goff: Mr. Mayor, the law prior to the 1946 Revised Statutes 43:14-1 provided before the question could go on the ballot to ascertain whether the employees can be covered by the state annuity fund, a resolution by the governing body had to be passed. Last year the law was amended by the "joker" which said — by the method prescribed in Revised Statute 11:21 to 11:28, and when you look at the Revised Statute you will find that 11:22-1 to 11:22-8 is the Civil Service Act which only requires the mere securing of 500 signatures, and could by-pass a law of long-standing that the City would have to decide by resolution whether the question should be put on the referendum. This bill would just revert the law back to where it was.

Commissioner Ellenstein: That is in effect what Mr. Parsonnet said. However, that really would put the

Commission "on the spot," because it would have to originate by resolution before the City Commission.

Mr. Goff: And you would decide, Mr. Commissioner, whether you wanted it to go on the ballot.

Commissioner Ellenstein: The recent law gives those who would like to join the state annuity fund an opportunity of getting 500 signatures without coming before the City Commission.

Commissioner Villani: We would defeat such a resolution.

Commissioner Keenan: We would defeat it, and I would not hesitate to tell any group, "You had a chance for 15 years to get into the pension fund. Why didn't you avail yourself of the privilege?" It isn't fair to the taxpayers whom we represent. I won't hesitate to tell a group that.

Commissioner Ellenstein: Are you interested in the bill?

Mr. Goff: We are interested in the bill because the City of Newark had a pension fund established by legislation whereby these employees have been eligible and still are eli-

gible to affiliate with the pension fund provided they would pay back their just and reasonable assessments.

And we ask, Mr. Mayor, if you disapproved of this bill, that you rescind your action and approve it.

Mayor Murphy: We did not take any official action.

Commissioner Brady: I move that we approve this amendment to the bill.

Commissioner Villani: I second that motion.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Ellenstein, Keenan, Villani, Mayor Murphy.

Commissioner Villani: I move we adjourn.

Mayor Murphy: Motion is made to adjourn. The Clerk will call the roll.

Yeas: Commissioners Brady, Ellenstein, Keenan, Villani, Mayor Murphy.

A Public Hearing on the 1947 Annual Budget was held on the above date in the Commissioners' Chamber, City Hall, Newark, at 10:00 A. M., Standard Time.

Mayor Murphy: The meeting will come to order. The Clerk will call the roll.

Present: Commissioners Brady, Ellenstein, Keenan, Villani, Mayor Murphy.

The City Clerk: Mr. Mayor and members of the Commission, this is a hearing on the budget as originally advertised in the local press on the 17th day of February, and the amendments in the budget as advertised on the 26th day of February.

Mayor Murphy: Before proceeding with the hearing on the budget, I would like to announce the final results of the conference held by the Commissioners on February 24th, at which time the budgets in each department were reduced in the following sums. I have just distributed copies to the members of the Commission.

In the Department of Public Affairs it was reduced \$72,000.

In the Department of Revenue and Finance, \$156,220.

In the Department of Public Safety, \$160,500.

In the Department of Public Works, \$40,000.

In the Department of Parks and

Public Property, \$387,703.

Broken down as to salaries and wages, it is \$369,928. And other expenses, \$446,495. Or a total of \$816,423.

The County Tax Estimated Reduction is \$100,000. The local schools, \$290,000. The total reduction is \$1,206,423.

The increase in revenues, surplus revenues, is \$1,250,000. Or a total of \$2,456,423.

The reduction in the amount to be raised by taxes is from \$46,163,572.44 to \$43,434,213.55. This amount is to be raised by taxes based on the estimated County taxes and bank tax statement, which will reflect a tentative tax rate of \$5.97.

The Clerk then read the Budget changes as advertised February 26, as follows:

Res. 4605 — WHEREAS, the Municipal Budget for the year 1947 was approved on the 10th day of February 1947, and

Increase or decrease of any item of appropriation by more than 10% of amount of such item in Approved Budget.

Increase amount to be raised by taxation by more than 5% of such amount as shown in Approved Budget.

Said advertising must be in at least one newspaper — and not less than two days prior to hearing.

These amendments are to be advertised in the Newark Ledger and Newark Evening News in the issue of February 26th, 1947, and a public hearing will be held on Friday, February 28th, 1947, at 10:00 A. M., in the Council Chambers, City Hall, Newark, N. J.

BE IT FURTHER RESOLVED, that all such amendments which require publication under the provisions of R. S. 40:2-8 be published in the Newark Star Ledger of February 26th, 1947, and that such publication contain notice of public hearing on said amendments to be held on February 28th, 1947, at 10:00 o'clock A. M., and

BE IT FURTHER RESOLVED, that two certified copies of this resolution be filed forthwith in the office of the Commissioner of Local Government for his certification of the 1947 municipal budget as so amended.

Mayor Murphy: On the resolution before the Commission, the Clerk

will call the roll.

Yeas: Commissioners Brady, Ellenstein, Keenan, Villani, Mayor Murphy.

Mayor Murphy: Is there anything further before the Commission?

4607 — Commissioner Villani: I will ask the City Clerk to read a statement into the record which I have prepared so that there will not be any implication about the status of my budget. Because I have taken quite a large amount off my budget, and I don't want any misunderstanding as to the thought that my budget may have been "padded," or anything like that. And this statement will clarify my

position on it. I would like to have the City Clerk read it into the record.

The City Clerk: This is the statement of Director Villani

"Reduction of my budget by \$387,703.00 contributes substantially towards a reduced tax rate for 1947.

"The reduction is predicated upon the realization of a Capital Improvement program to be paid by a bond issue otherwise the slashing of this sum from my budget will prevent the rendering of essential public services for garbage and snow removal and street cleaning in the Bureau of Sanitation and vital services in the Shade Tree Bureau, as well as urgently needed major repairs in practically all of our public buildings.

"The deplorable condition of our buildings and other public property which presents many dangerous health and fire hazards and has been the subject of repeated appeals for correction by Dr. Snavely of the City Hospital, Dr. Craster of the Health Department, and my fellow Commissioners with regard to the buildings occupied by their respective agencies.

"Due to the war emergency and because of lack of finances, dating back to the depression, our public buildings in many instances have been permitted to deteriorate to the point where further neglect will make the cost of their future preservation for public use almost prohibitive.

"The same general conditions apply to city equipment much of which has long since become obsolete and is now being used because of dire circumstances—but only at abnormally high cost of maintenance and repairs.

"The need for modern equipment was only too vividly impressed upon us during and since the recent snow storm. Because of lack of sufficient and adequate equipment, it has been necessary to use 28 horse-drawn vehicles and to engage 45 outside trucks, in addition to the City's deficient motor vehicles, to try to meet the conditions.

"Adequate motorized equipment, designed to meet the refuse removal and emergency snow removal requirements of our city calls for the expenditure of approximately \$1,000,000. Lower Manhattan has the benefit of this type of equipment. In addition to the equipment, lower Manhattan has a sewerage system with the capacity to receive the snow, and sewerage flow of such volume as to remove it. New York not only suffers from a lack of such sewerage facilities, but sorely needs modern motorized equipment.

"To properly and economically make the structural and other necessary repairs to our public buildings will require \$1,312,740. It is to meet these two essential financial requirements, that is: the cost of motorized equipment and the cost of repairing public buildings, that I have asked for a bond issue covering these amounts; bearing in mind that the savings, over the years, consequential to new equipment and major repairs and capital improvements, would be more than sufficient to meet the cost and ultimate retirement of these bonds. As a result of this, the city tax rate will not only reflect the reduction I have brought about this year but will be reflected in the coming years.

"I am happy that my fellow Commissioners appreciate not only the necessity for the bond issue but agree that its issuance will afford great relief to the taxpayers of our City."

Mayor Murphy: The City Clerk is hereby directed to submit to Commissioner Darby the original copies of the amendments to the budget as passed by the City Commission at this meeting.

Commissioner Villani: I move we adjourn.

Commissioner Brady: I second the motion.

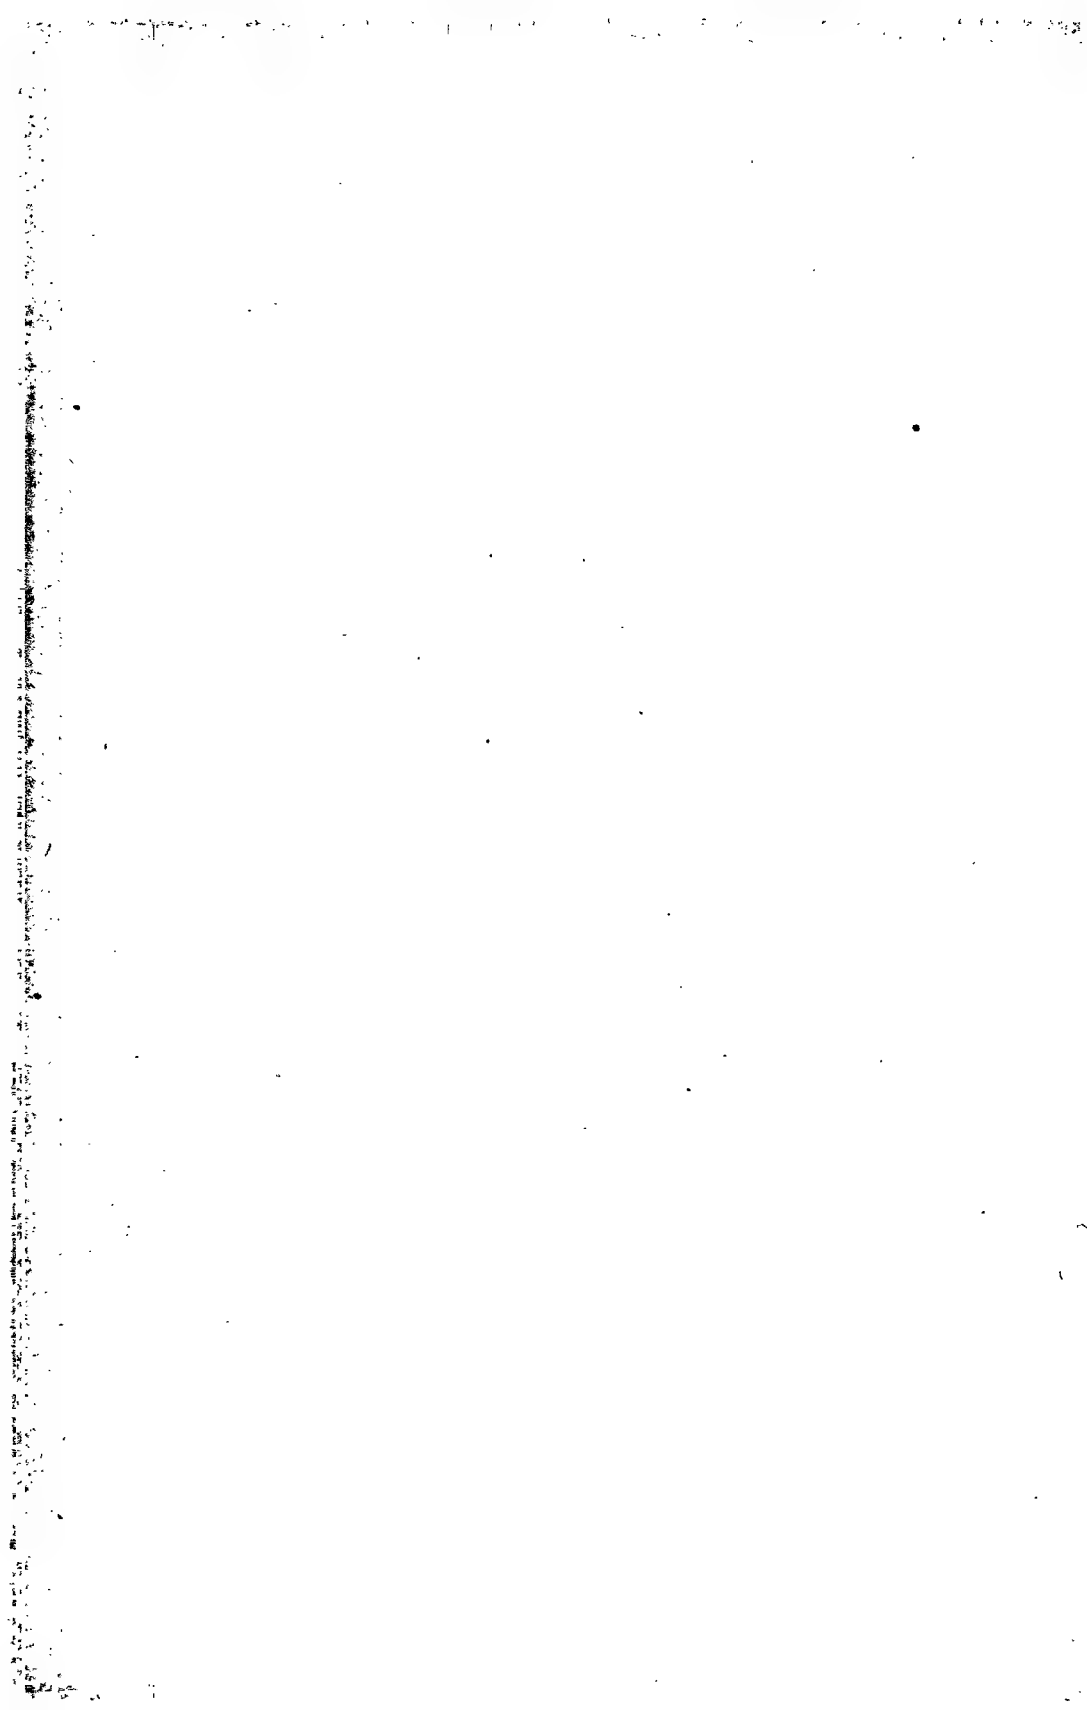

Mayor Murphy: Motion is made to adjourn. The Clerk will call the roll.

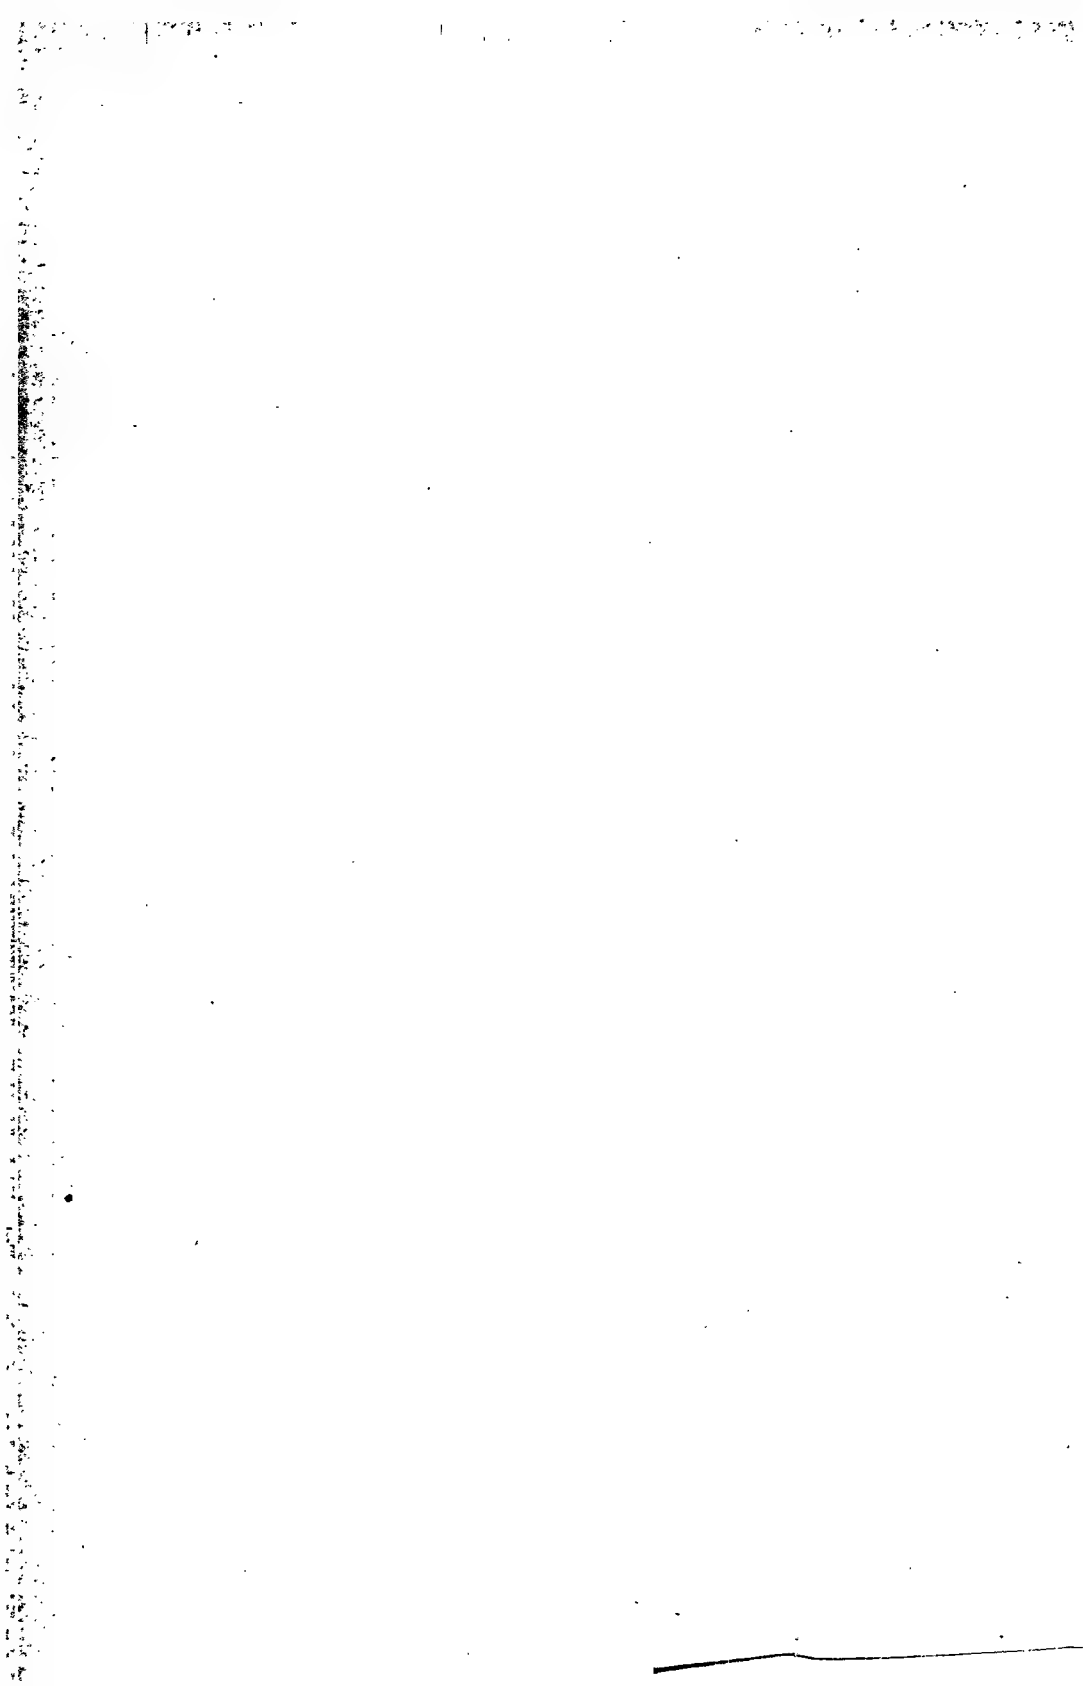

Yeas: Commissioners Brady,

Ellenstein, Keenan, Villani, Mayor Murphy.

The City Clerk: For the record, the next meeting of the Commission will be on March 11th, at which time we will adopt the budget. That is, after it has been approved by Commissioner Darby.

Mayor Murphy: The next meeting of the City Commission will be on March 11th—for the benefit of those that are here—at which time the budget will be adopted. That is the "deadline" for the adoption of the budget.

4835 — WHEREAS, Senate Bill 141 was introduced in the State Senate on March 17, 1947 and, before an opportunity was provided for the public to examine or analyze its provisions, because it had not yet been printed and made available to the public, the bill was passed by the State Senate, and

WHEREAS, this bill is a piece of mandatory legislation which compels the State Administration, and all counties and municipalities to retire on pension all persons in the public employment who are eligible for such retirement, and thereby will subject government on all levels within the state to very heavy additional and unnecessary expense, and

WHEREAS, the bill, if enacted, would force into unemployment and prohibit the reemployment in public service, at an adequate income, hundreds of thousands of efficient,

capable persons still in their prime of life, and

WHEREAS, by its mandatory features the bill is a serious infringement of the principle of home rule, a violation of the basic principle of Civil Service and the merit system in public employment,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COMMISSIONERS OF THE CITY OF NEWARK that we are unalterably opposed to the adoption of this measure, and urgently call upon the Senate of New Jersey to reconsider its approval of this measure; that we request the members of the General Assembly of New Jersey to oppose its passage; and that we call upon the Governor of New Jersey, the Hon. Alfred E. Driscoll, to veto the measure if it should be adopted by the Legislature, and it is further

RESOLVED, that we condemn the process of "Legislative Lightning" by which bills of this type are adopted quickly, without opportunity for a hearing on the part of persons, or organizations who may

be opposed thereto, and respectfully request the members of the Legislature to preserve the democratic form of government by giving full effect to the right of petition guaranteed by the Constitution, by means of withholding action on proposed legislation until the public shall have had the opportunity to examine and express itself concerning the same, and it is further

RESOLVED, that a copy of this resolution be forwarded forthwith to the Governor, the members of the Senate, and the members of the General Assembly.

LOCAL MUNICIPAL BUDGET EXPLANATORY STATEMENT

The following Budget of Appropriations for the City of Newark, N. J. for the fiscal year 1947 conforms to existing legislation and the rules of the Department of Local Government of the State of New Jersey.

The amount to be raised by taxation for 1947 is an estimate, because the actual County and Bank Stock taxes are not known at the time of the preparation of the budget.

The amount to be raised by taxation is estimated at \$43,434,213.55 for 1947 compared with \$39,479,398.50 in 1946, an increase of \$3,954,815.05 over 1946.

This increase is chiefly attributed to the increase in the cost of operating the five departments, higher school costs, increased County Taxes and increased emergency appropriations.

Miscellaneous Revenues Anticipated have been conservatively estimated and total \$8,375,000.00. This is a decrease of \$76,442.34 over the amount anticipated for 1946, which difference is chiefly attributed to the fact that no surplus in water revenues was appropriated this year compared with \$500,000.00 used last year.

Due to recent legislation a new method of collecting school funds has been adopted. This year for the first time there is no State School Tax,—however, it is mandatory for the City to raise \$1,432,138.41 in 1947 for school costs compared with the State School Tax of \$1,468,437.92 in 1946.

School taxes for 1947, including emergency of \$956,000.00, but exclusive of the beforementioned \$1,432,138.41 total \$12,010,658.00 compared with \$9,494,750.00 for 1946, an increase of \$2,515,908.00 over 1946.

The financial condition of the City continues to be excellent. During the year 1946 there was a reduction of \$5,402,500.00 in the amount of bonded debt of the City over 1945 so that as of December 31, 1946, the gross bonded debt was \$66,588,700.00—compared with \$71,991,200.00—as of December 31, 1945. The bonded debt as of December 31, 1937, was \$122,470,253.00; therefore, the debt has decreased \$55,881,553.00 in 9 years or 45.63%. The Debt Service in 1947 budget amounts to \$5,621,438.20 compared with \$6,549,866.12 in 1946, or a decrease of \$928,427.92.

The assets in custody of the Sinking Fund Commission at December 31, 1946, total \$7,215,117.39, making the City of Newark's net bonded debt \$59,373,582.61.

Ratables for 1947 have increased to \$725,494,500.00—consisting of \$514,621,100.00 for real estate and \$210,873,400.00 for personal property. In 1946 the ratables were \$500,182,900.00 for real estate and \$207,505,900.00 for personal property or a total of \$707,687,900.00. The total increase in ratables for 1947 amounts to \$17,806,600.00 over 1946.

Yeas: Commissioners Brady, Keenan, Mayor Murphy.

Commissioner Keenan: (Interrupting) What is the reason for that?

Mayor Murphy: These are for the increases of mechanics.

Commissioner Keenan: It is read in such a fashion as would leave you

to believe it is the formation of an additional bureau.

Mayor Murphy: In other words, the electricians and so forth are under a new rate of two dollars and a half an hour.

Commissioner Keenan: Erroneous impressions are given particularly to the press with the manner in which I guess they have to be read. One would be led to believe that you are creating a new bureau, making new appointments there.

Mayor Murphy: No. It is adjusting the electricians and carpenters.

Commissioner Keenan: That accusation was made against me editorially one time.

Commissioner Brady moved that April 23rd, 1947, at 2:00 P. M., Standard Time, be fixed as the time when this ordinance will be further considered for final passage.

Section 8. This ordinance shall take effect twenty days after the first publication thereof after final passage.

Mr. Jamouneau: My objection is to all three of them. I wanted to discuss all of them together.

The City Clerk: All right, go ahead.

Mr. Jamouneau: This first one is the ordinance for \$1,300,000 to authorize certain public improvements in the City of Newark. It consists of 18 items of various kinds. The first is "acquisition and installation of additional equipment, furnishings and machinery." The second is "reconstruction of the City Hall, \$48,000." Well, of course—then there is the Victoria Street Garage and the Board of Education Building.

I think the whole ordinance is largely made up of items of ordinary repairs and upkeep. Ordinary maintenance that should have been provided for in the annual budget. This simply provides a dodge whereby the City escapes putting the money in the annual budget, which by law it is required to do, and now it is passing an ordinance on the pretension of substantial reconstruction which is largely ordinary repairs.

I think this whole matter ought to be revised by the Board of Com-

missioners, and an examination made as to how much of this money is really justifiable on the theory of substantial reconstruction. Because the Local Bond Law does not permit you to spend any money on bond issue for ordinary repairs. And I am convinced that this \$1,300,000 is largely made up of ordinary repairs.

Mayor Murphy, the four Commissioners and Corporation Counsel Parsonnet, took issue with Mr. Jamouneau, declaring the protestant did not understand the Bond Act under which the action was taken. They pointed out that Mr. Washburn, bond attorney of New York approved the procedure taken by the Board of Commissioners. All voted "Aye" on roll call.

(Copies of full discussion are available for reading at City Clerk's office).

Commissioner Villani introduced the following ordinance and moved its adoption on first reading.

5499 — Hearing on ordinance fixing salaries in the Bureau of Sanitation. Richard E. Chislett, II, appearing for the Chamber of Commerce, asked to be heard. He said the ordinance fixing salaries of mechanics employed by the City at the prevailing daily rate for the respective trades was out of line with wages paid by private companies. The yearly salary he asserted was based on 260 days a year. Yearly employment is guaranteed the City employees, whereas the artisan in private industry has to contend with layoffs caused by the elements. He said the Chamber of Commerce suggested a 75 per cent ratio of the prevailing daily wage. A survey of business throughout the City conducted by the Chamber, he added, failed to disclose one industry that pays a rate as high as the City. In reply to Commissioner Ellenstein's request for the names of these private concerns, Mr. Chislett said "we would be glad to help you get in touch with these so you could get their comparable rates."

In asserting he did not agree with the Chamber's attitude, Director Ellenstein said: "I don't see how logically, you could take a position like that, you or any member of the Chamber of Commerce. I have two plumbers in my department. If I were to supplement them with four, they will each be working 20 hours a week, and the amount of

money it will cost the City will be the same. You believe in penalizing a man because he works a full work week." Mr. Chislett said that was not the position the Chamber took.

Mayor Murphy said that it has been the policy of the City for many years to pay prevailing wages and that the Chamber's attitude was to get away from such procedure. The hearing continued with Director Keenan pointing out that a mechanic employed by the City does as much work as a man in private industry. Commissioner Brady suggested that the Chamber's survey may have been made of organizations not paying a sufficient living wage. Frazer L. Holzlohnner, repre-

senting the Building Trades Council, declared the Chamber would penalize workmen because they worked steady. The ordinance was then taken up on second reading, and final passage, and adopted unanimously.

5505 to 5508 — Companion ordinances of No. 5409 providing salary changes in the Bureau of Public Buildings; Division of Fire and Police; Bureau of Streets;; Ivy Hill Power House and Newark City Hospital. No one appeared at the hearing of each of these, and all were adopted on final passage.

A motion to adjourn by Commissioner Villani was adopted.

Section 4. All matters with respect to said notes not determined

by this ordinance shall be determined by resolutions to be hereafter adopted. In the event that bonds are issued pursuant to this ordinance, the aggregate amount of notes hereby authorized shall be reduced by an amount equal to the principal amount of the bonds so issued. Section 7. It is hereby determined and stated that the average period of usefulness of said several purposes, according to their respective reasonable lives, taking into consideration the respective amounts of bonds to be issued for said several purposes, is a period of thirty-seven years computed from the date of said bonds.

WHEREAS, the preservation of the health, safety, morals and welfare and the necessary and proper good government, order and protection of persons and property, of the inhabitants of this City thus rendered homeless, demands and requires that a record be kept of tenants dispossessed, threatened with dispossession, or in need of safe, sound and sanitary dwelling, to the end that ways and means may be

devised toward assisting them and alleviating conditions now facing them and which may possibly become even more acute on or about March 1, 1948, when Federal restrictions terminate.

5681 — An ordinance authorizing improvements to the water supply system of Newark and to provide for the issuance of bonds and bond anticipation notes to finance the cost came up for final hearing, and was passed. To finance the project an amount not to exceed \$500,000 was authorized.

5682 — An ordinance requiring owners of property occupied for living purposes, their legal representatives or agents, to file with the City Clerk of the City of Newark a copy of any notice served upon the tenant or occupant of said premises demanding the possession of such premises or increasing the rent thereof; requiring said owners, their legal representatives or agents, to notify the City Clerk of their intention to negotiate with tenants for an increase of rent and to file a copy of any lease entered into with the tenant as a result of such negotiations; and further requiring the owners of property, their legal representatives or agents to file with the City Clerk a copy of such new agreement or lease entered into; creates an advisory board to hear and mediate on disputes arising

between landlords and tenants; provides penalties for violation of said aforementioned provisions, was presented for a hearing.

Objections and arguments for and against the measure were expressed by representatives of various organizations and taxpayers. David Cronheim, speaking for the Real Estate Board of Newark, said it was definitely opposed to the ordinance mainly on the ground that it would be a duplication of the work of Federal Housing Expeditor.

Charles Becker asserted lawyers do not know the rent laws today, and judges are refraining from giving opinions of it. The appointment of a board of twelve to act as mediators, he declared, was a political move, even if they served without compensation. He stressed the alleged disparity of assessments on commercial buildings. Mr. Joseph Zemel emphasized that a landlord could not dispossess a tenant for non-payment of rent without going through a lot of red tape under the proposed ordinance. Walter Barry said from his interpretation of the ordinance, landlords effected by low income would have recourse for an adjustment of rent. He said he felt that the arguments presented by the real estate people were not in conformity with the ordinance and its interpretations. Other comments on the ordinance were made by Herbert Goldberg, who spoke of possible conflicts with the Federal decontrol of Housing and Miss Mary Adams presented a statement in behalf of the Communist Party of Essex County, in which it held that conditions warrant the kind of an ordinance which will give citizens the fullest measure of protection.

The legal aspects of the ordinance were presented by Corporation Counsel Parsonnet, and Assistant Corporation Counsel Simandl. The latter stressed the need of such an

ordinance, pointing out that the number of eviction cases before the courts was increasing daily. Commissioners Keenan and Ellenstein interrogated City Counsel on all phases of the ordinance. The former spoke on the increase in rentals in commercial buildings, which are not covered by the ordinance, as did Commissioner Ellenstein. The latter stated that many of these buildings received assessment cuts during the depression period, and now have jumped their rentals.

A telegram from Governor Driscoll, addressed to Mayor Murphy was introduced by Mr. Simandl. In it the Governor stated he felt that the need for rent control was not measured in terms of weeks, months or years, but in terms of supply and demand, and that until such time as supply more nearly balances demand it will be the purpose of the present State Administration to sponsor a continuation of reasonable rent controls. He added that the present State control law, extended to June 30th, 1948, will be continued if supply and demand remains out of balance. Referring to the local situation he said, "If local conditions are such that facts can be established to support the reasonableness of local regulations, as reasonableness is defined by the courts, then existing statutes appear to afford ample authority for municipal ordinance. The ordinance should of course be limited to matters not covered by the presently operating Federal rent control law, as would be the case with any State statute."

Mayor Murphy declared when he had his conference with the law department, he had in mind an ordinance that would not be discriminatory against landlords. He added that he felt tenants were entitled to all the protection the City Commission could give them under the law. Commissioner El-

lenstein said he could see that the ordinance can serve some good purpose, because the thought was to protect tenants who would accept some ad interim leases, as there is no State legislation beyond July of next year, and the Federal legislation expiring March 1st next. The ordinance can certainly serve a good purpose, but it should be a reasonable ordinance, protecting the tenants in their homes, but not be drastic on the property owners or landlords. The ordinance is necessary, he added.

The ordinance was laid over for two weeks.

5683 — Ordinance appropriating \$693 from the capital improvement fund of the City to finance the reconstruction of the Butler hangar at City Airport, was passed on final reading.

5684 — An amending ordinance to one creating permanent positions in the City Hospital, was given a further hearing and passed on final passage.

Remarks: —

Mayor Murphy: I just want to make a statement at this time for the benefit of the Commissioners. This will only take a minute, but I think we ought to straighten out the record with reference to some remarks that have been made in connection with the assessed valuation of the Chamber of Commerce Building on Branford Place. The statement has been made that in 1942, they had received a substantial reduction in the assessed valuation.

I want to put this picture clearly before the Commission. In 1940 that property was assessed at \$610,000, and it was reduced by the State Board against the assessment created by the City to \$538,000. That was in 1940. In 1941 the assessment was reduced by an appeal again, by the Chamber of Commerce to the State Board, down to \$456,000. In 1942 the Chamber of Commerce appealed the City's assessment again, and it was brought down to \$445,000, from the \$456,000. And again by the State Board. These are all by the State Board.

In 1943 the assessment was established at \$450,000 by the County Board, and there was no appeal by the Chamber according to this statement I have before me. The assessment of 1944 was \$450,000.

Commissioner Ellenstein: I don't know who reduced it. I would like to see the record upon which the State Board made all those deductions. I don't know who defended

it; but perhaps you could answer why then other office buildings in the city received an increase of between 10 and 25 per cent this year, for 1947, and the Chamber of Commerce received no increase. Conditions are a little different today than they were in the early 40's and 41's.

Mayor Murphy: I cannot answer that other than the fact that I know that the Board, through the expressions here at City Commission meetings, was to increase all of the properties in the downtown area, those properties that were in line to be increased.

Commissioner Ellenstein: What you have said does not contradict what I have said. I said the Chamber of Commerce received a reduction of \$160,000 from 1941 up to the present time, and they were assessed at \$600,000 or more during the entire period of the depression, at a time when they had vacancies running up as high as 20 per cent. We all know at least at the beginning of 1942 there were no vacancies in the Chamber of Commerce Building or in any other office building. I don't know whether it was decreased by the action of the City Board, the County Board or the State Board, however, you as tax assessor, charged with levying taxes, should know why every other office building received an increase in assessment this year of between 10 and 25 per cent but not the Chamber of Commerce.

Mayor Murphy: I certainly can find out from the records, Commissioner. You have a member on the Tax Board, and Mr. Slavitt is president of the Tax Board. He is a very able man and certainly you can get the record as to why they did not increase the Chamber of Commerce Building. For the benefit of the Commission I will be only too glad to get that information.

Commissioner Ellenstein: Now you are endeavoring to show me that it is my responsibility because I have one member on the Tax Board. I don't tell Mr. Slavitt how to conduct himself on the Tax Board. He is but one member. It is not my duty to look after the actions of the Tax Board. That comes under your administration. You are in sole charge of all the executive, judicial and legislative powers in that Board.

Mayor Murphy: It does not mean a thing.

Commissioner Ellenstein: It does not mean a thing to you but it does mean a thing to others when you frittered away twelve million dollars of taxes by not following the law during the period that you administered that department.

Mayor Murphy: My conduct will stand before the taxpayers of the City and the voters, and not you.

The roll being called, the motion was declared adopted by the following votes: Yeas: Commissioners Brady, Ellenstein, Keenan, Villani, Mayor Murphy.

Commissioner Villani moved that September 10th, 1947, at 2:00 P. M., be fixed as the time when said ordinance will be further considered for final passage.

5775 — On first reading an ordinance repealing one adopted August 13, 1947, which created the office of Sr. Supervising Orderly in the Convalescent Hospital at a salary of \$1850 to \$2100. A further hearing was set for September 10, 1947.

5776 — An Ordinance Requiring Owners of Property Occupied For Living Purposes, Their Legal Representatives or Agents, to File with the City Clerk of the City of Newark A Copy of Any Notice Served Upon the Tenant or Occupant of said Premises Demanding the Possession of Such Premises or Increasing the Rent Thereof; Requiring

said Owners; Their Legal Representatives or Agents, to Notify the City Clerk of Their Intention to Negotiate with Tenants for an Increase of Rent and to File a Copy of any Lease Entered into with the Tenant as a Result of Such Negotiations; and Further requiring the Owners of Property, their Legal Representatives or Agents to File with the City Clerk of the City of Newark a Copy of Such New Agreement or Lease Entered Into; and Creating an Advisory Board to Hear and Mediate on Disputes Arising Between Landlords and Tenants; and Providing Penalties for Violation of Said Aforementioned Provisions.

Today was the time fixed for a further hearing.

Mayor Murphy: Will the Law Department make a statement at this time?

Sidney Simandl: From the Clerk of the District Court, Mr. Hecht, I learned that there were 1,039 cases, hold-over cases—not non-payment of rent cases—pending at this time, 558 of which are in the City of Newark.

Then I took up with Mr. Hecht the objection of Mr. Zemel, about being given notices where there were cases of non-payment of rent, and the Clerk of the Court has agreed to give to any City official or his representative such a list.

I also contacted Mr. Michael Pecora, Expediter for this district. He informed me that the federal board was organizing, and the federal counsel had advised Mr. Pecora that the Government, or the expediter, could not recognize the board set up by the City of Newark but they made the suggestion that we appear before the federal board as set up, and that possibly a working agreement could be worked out with the federal board.

Mayor Murphy: Did I understand you to say that they just organized last night?

Mr. Simandl: That is correct, Mr. Mayor. Last night.

Commissioner Ellenstein: Do you know that the City of New York is about to pass an ordinance, I think today, on the very same subject?

Mr. Simandl: I followed it, Commissioner Ellenstein. And I noted an opinion from the deputy expediter of the United States, who said that he thought it was constitutional to perform any acts that are mentioned in the federal act so long as they were not in conflict with them, even though they were in duplication.

Commissioner Ellenstein: Wouldn't it be wise for you to get a copy of the New York ordinance and advise the Corporation Counsel as to whether or not it should be included.

Mayor Murphy: I think you ought to work as speedily as possible, Counsellor, in having this thing straightened out and having it in effect. The time is getting short. As I understand it, you are going to call a meeting with those representatives of the groups that were here at the last meeting and those that are here today who desire to attend.

Mr. Simandl: Yes. Might I suggest at the next conference that the Commissioners just give it a certain amount of time and see if we can get some workable ordinance.

Commissioner Ellenstein: Why don't we have the people present give their names and addresses to Mr. Simandl, and he will notify them as to the time of the conference?

Mrs. Alice Ostrow: We will do

that, Mr. Mayor; but most of us have been hanging around since 10 o'clock. We were assured of speaking this afternoon. I wonder if you would give us the privilege. I am the chairman of the Tenants' Committee for the Extension of Rent Control. My organization feels that the ordinance is totally inadequate. We would like to see a more comprehensive law. By comprehensive we mean a law that might be placed on the books, and if the federal and state control expires, might be invoked immediately by the proclamation of the Mayor or the Commissioners or both. Would such a law be illegal?

This subject has been of a controversial nature insofar as people have made public statements for or against the constitutionality of such a rent control law in the City of Newark. I want to tell you that when it is a question of the health, welfare and safety of our people, our concepts of the law has to change.

First, we would like to see the continuation, unabridged, of all services rendered under O. P. A. Second, we do not feel that \$25 and \$50 penalty is sufficient. If a landlord owns an apartment house with fifty apartments and over-collected \$5 for each one apartment, he would have collected 50 times that, and you are going to slap him down with \$50? And in serious cases we would like to see him imprisoned. Mrs. Ostrow then elaborated on the program.

Mayor Murphy: Will those people come forward so that they may be heard?

Mr. Stephen Siteman (Educational Director for the United Retail and Department Stores Employees of New Jersey, C. I. O.): Said his organization is wholeheartedly in support of Mrs. Ostrow's rent con-

trol program.

Margaret K. Denzer: On behalf of the Traffic Telephone Federation of New Jersey, representing 12,000 members, wanted to go on record as endorsing this committee's activities.

But if you have a point you want to bring out, all right.

Mr. Bloom maintained the whole point is one of emergency. The governor says there will be new legislation?

Commissioner Villani: "Aye."

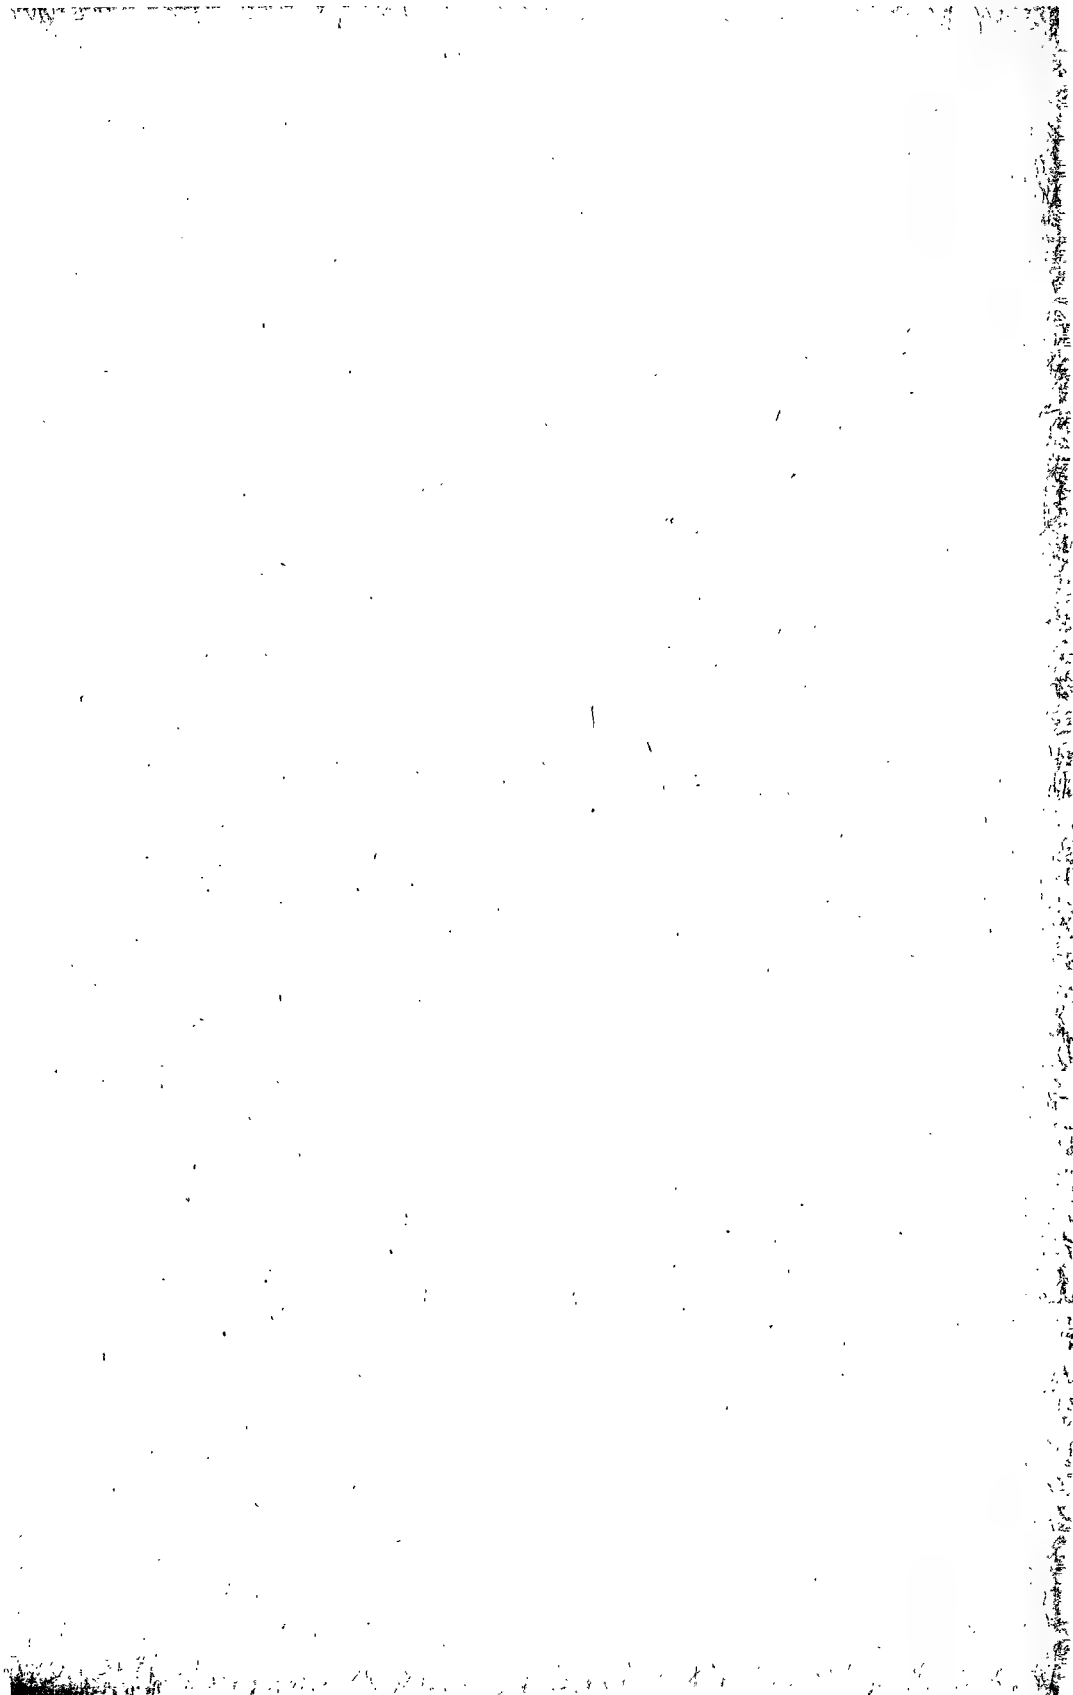

Mayor Murphy: "Aye."

Mayor Murphy: The resolution has been adopted.

Commissioner Ellenstein: Mr. Mayor and Commissioners, I want to say a word, now that this thing has been done. I believe the City has just sold its birthright for a mess of pottage—for, without doubt, Port Newark is our only hope for the City's growth through industrial expansion, and through such expansion, the ultimate solution of its major financial problems.

As an individual with strong convictions in the matters of the lease, I have expended a great deal of my energy and strength to make known to the people of Newark the other side of this Port Newark deal, which has been viewed by some as such a gilt-edged proposition.

But the Commission has acted—and as a citizen and a member of the governing body, and for the sake of present and future generations of residents and taxpayers of our great City, I earnestly and sincerely hope that those who voted for the deal were right, that I am

wrong and that we have not made, as I believe we have, the most stupendous mistake in the City's history.

As hard as I have labored to oppose this deal, I will do everything I can as a member of our community and as one of its elected representatives, to make it work to the best possible advantages of the city.

I do hope, as I suggested when this meeting started, that we can at least convince the Port Authority to accept some modification of the most objectionable provisions of the lease, and I will be glad to render any assistance that I can in that direction.

Mayor Murphy; Next order of business.

6164 — Extends congratulations to Commissioner John A. Brady and Mrs. Brady on the occasion of their fortieth wedding anniversary.

6165 — Expresses heartfelt condolence of the City Commissioners to the bereaved family of Michael Hollander, and sets forth the esteem in which he was held by the citizens of the City for his interest in philanthropic and welfare causes, his furtherance of religious and spiritual endeavor and his devotion to the civic welfare.

The City Clerk: Before we adjourn, there is a gentleman who wants to address the Commission.

Reverend N. E. Aregood (Fairmount Baptist Church): Mr. Mayor, you did a job here today that I just want to personally thank you for on behalf of the Boys' Club of Newark, New Jersey, Incorporated, of America, and for the residents of the district around 13th Avenue and Littleton Avenue.

The old homeopathic site on Littleton Avenue and 13th Avenue will now be converted into a Boy's Club. It is going to cost us over \$500,000 to put that club up. We will be able to take care of 2,200 boys. And so today you have given us the encouragement to go ahead.

I am the pastor of the Fairmount Baptist Church. I have been there for 8 years, and the boys there in that neighborhood have worn out

our gym, and we are happy to have a new one. And you men today have given us the moral support we need, and we are going ahead.

We hope to get the \$500,000. We have already \$400,000, and we are going to get the balance of it. And that is just one club. We have two other branches. This will be the main branch. And I am hoping we will be able to put up club houses for boys all over the City of Newark where we can develop better citizens of this great city.

And on behalf of the Boys' Club, also on behalf of the boys in my neighborhood where I have been working for 18 years, and the parents of our boys in our neighborhood, we want to thank you from the depths of our hearts. Thank you, gentlemen, and may God bless you.

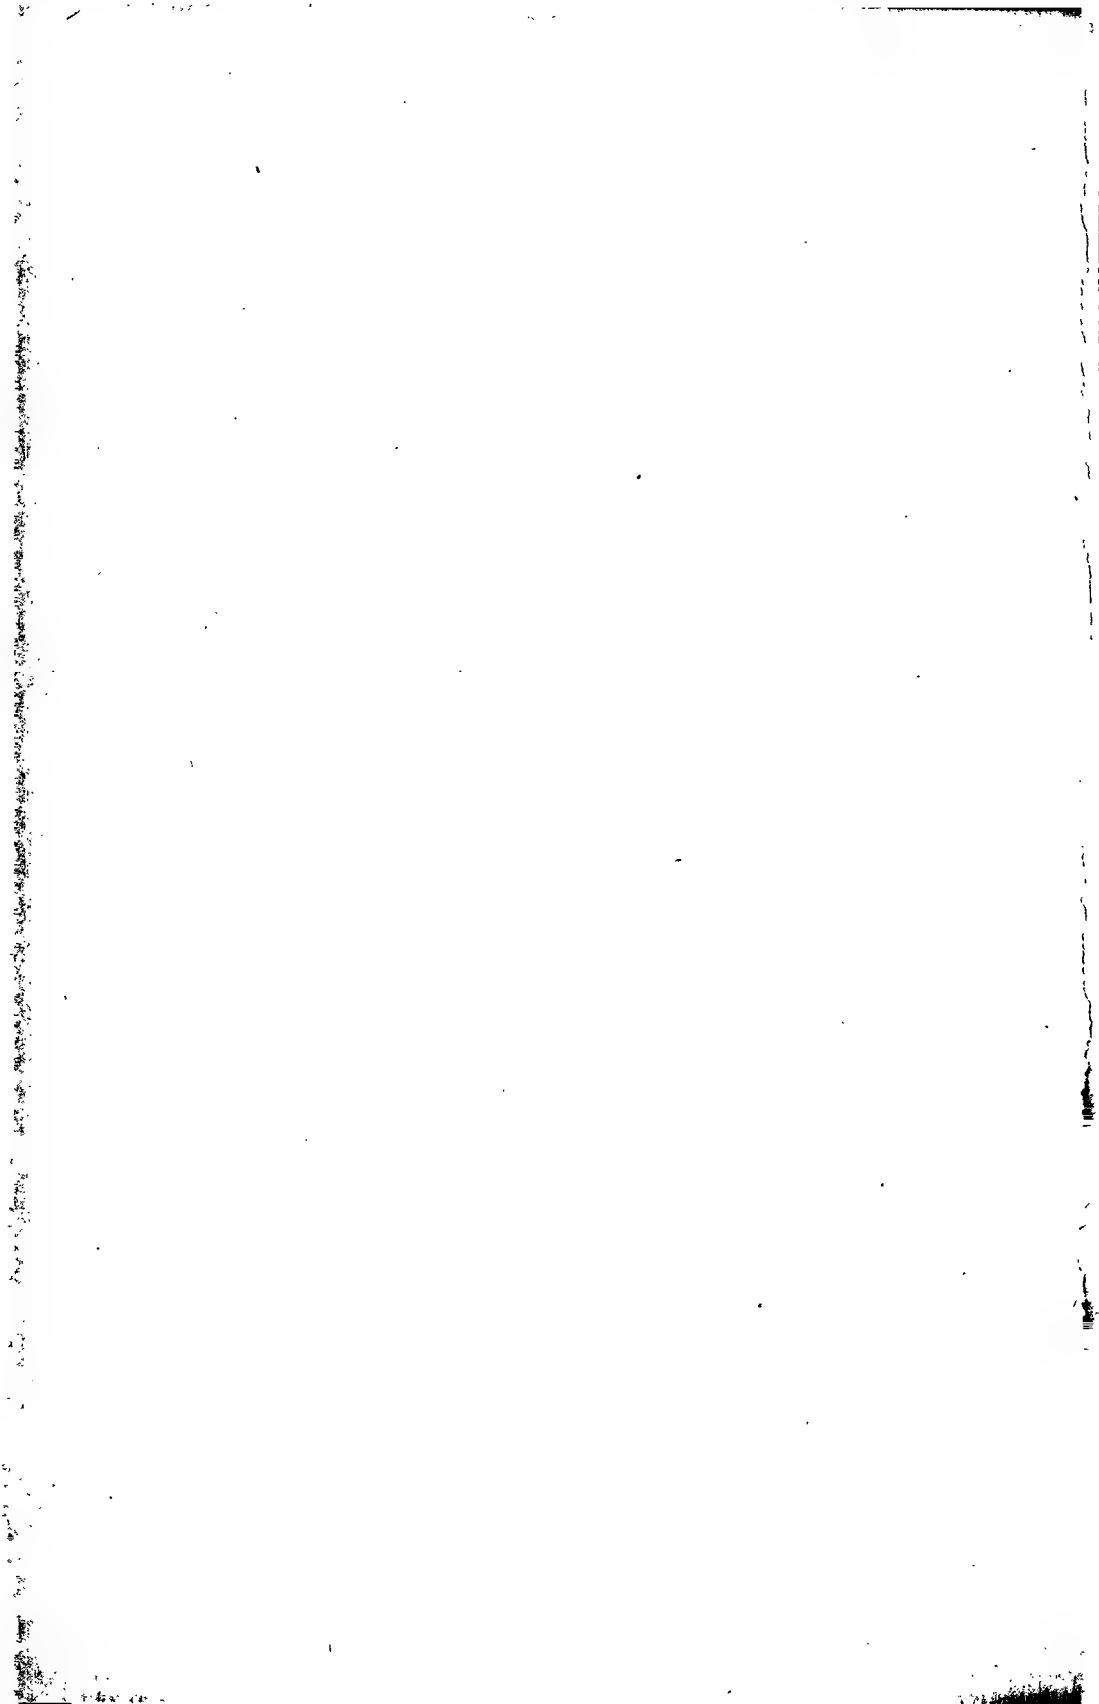

Mayor Murphy: I want to say in behalf of the Commissioners, that we greatly appreciate this move by the Boys' Club and yourself and all those who are involved in trying to erect this grand building for the benefit of our boys. It will be a benefit and a credit to the city. In behalf of the Commissioners, I say many thanks. It is your type of citizen that is really helping to encourage those of us in public life to carry on and do a good job.

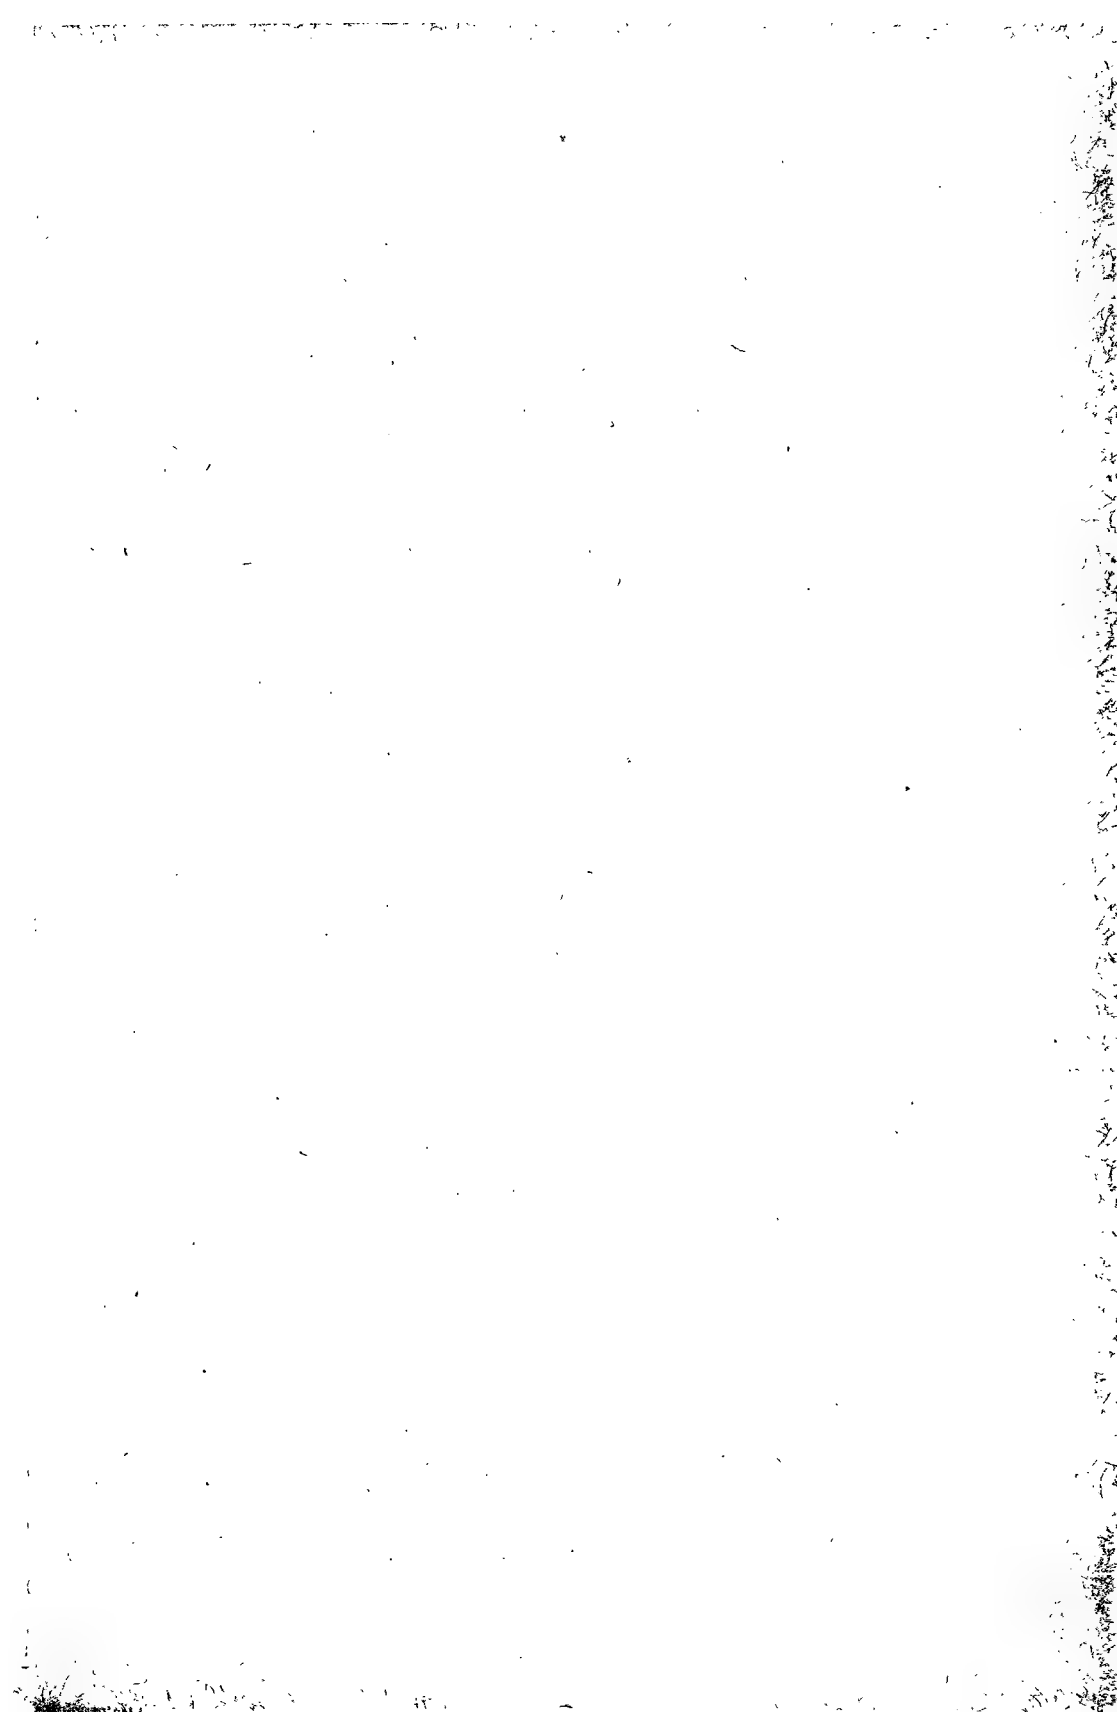

Commissioner Villani: I move we adjourn.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Ellenstein, Keenan, Villani, Mayor Murphy.

A resolution, the purport of which was the return of \$1,079 in rents collected by the City on property, the tax sale certificate of which had

been disposed of by the City, was questioned by Commissioner Ellenstein. He said it was a dangerous precedent to establish and furthermore was not equitable. He maintained the City was entitled to retain the money. Corporation Counsel Parsonnet declared that the matter had been gone into thoroughly. He said that the City received payment of all arrearages and interest due on the property, and that the assignment of rents to the person named in the resolution was correct. The certificate he added was disposed of at private sale and not under the Act of 1945 which provides for public sales.

Director Brady suggested that it

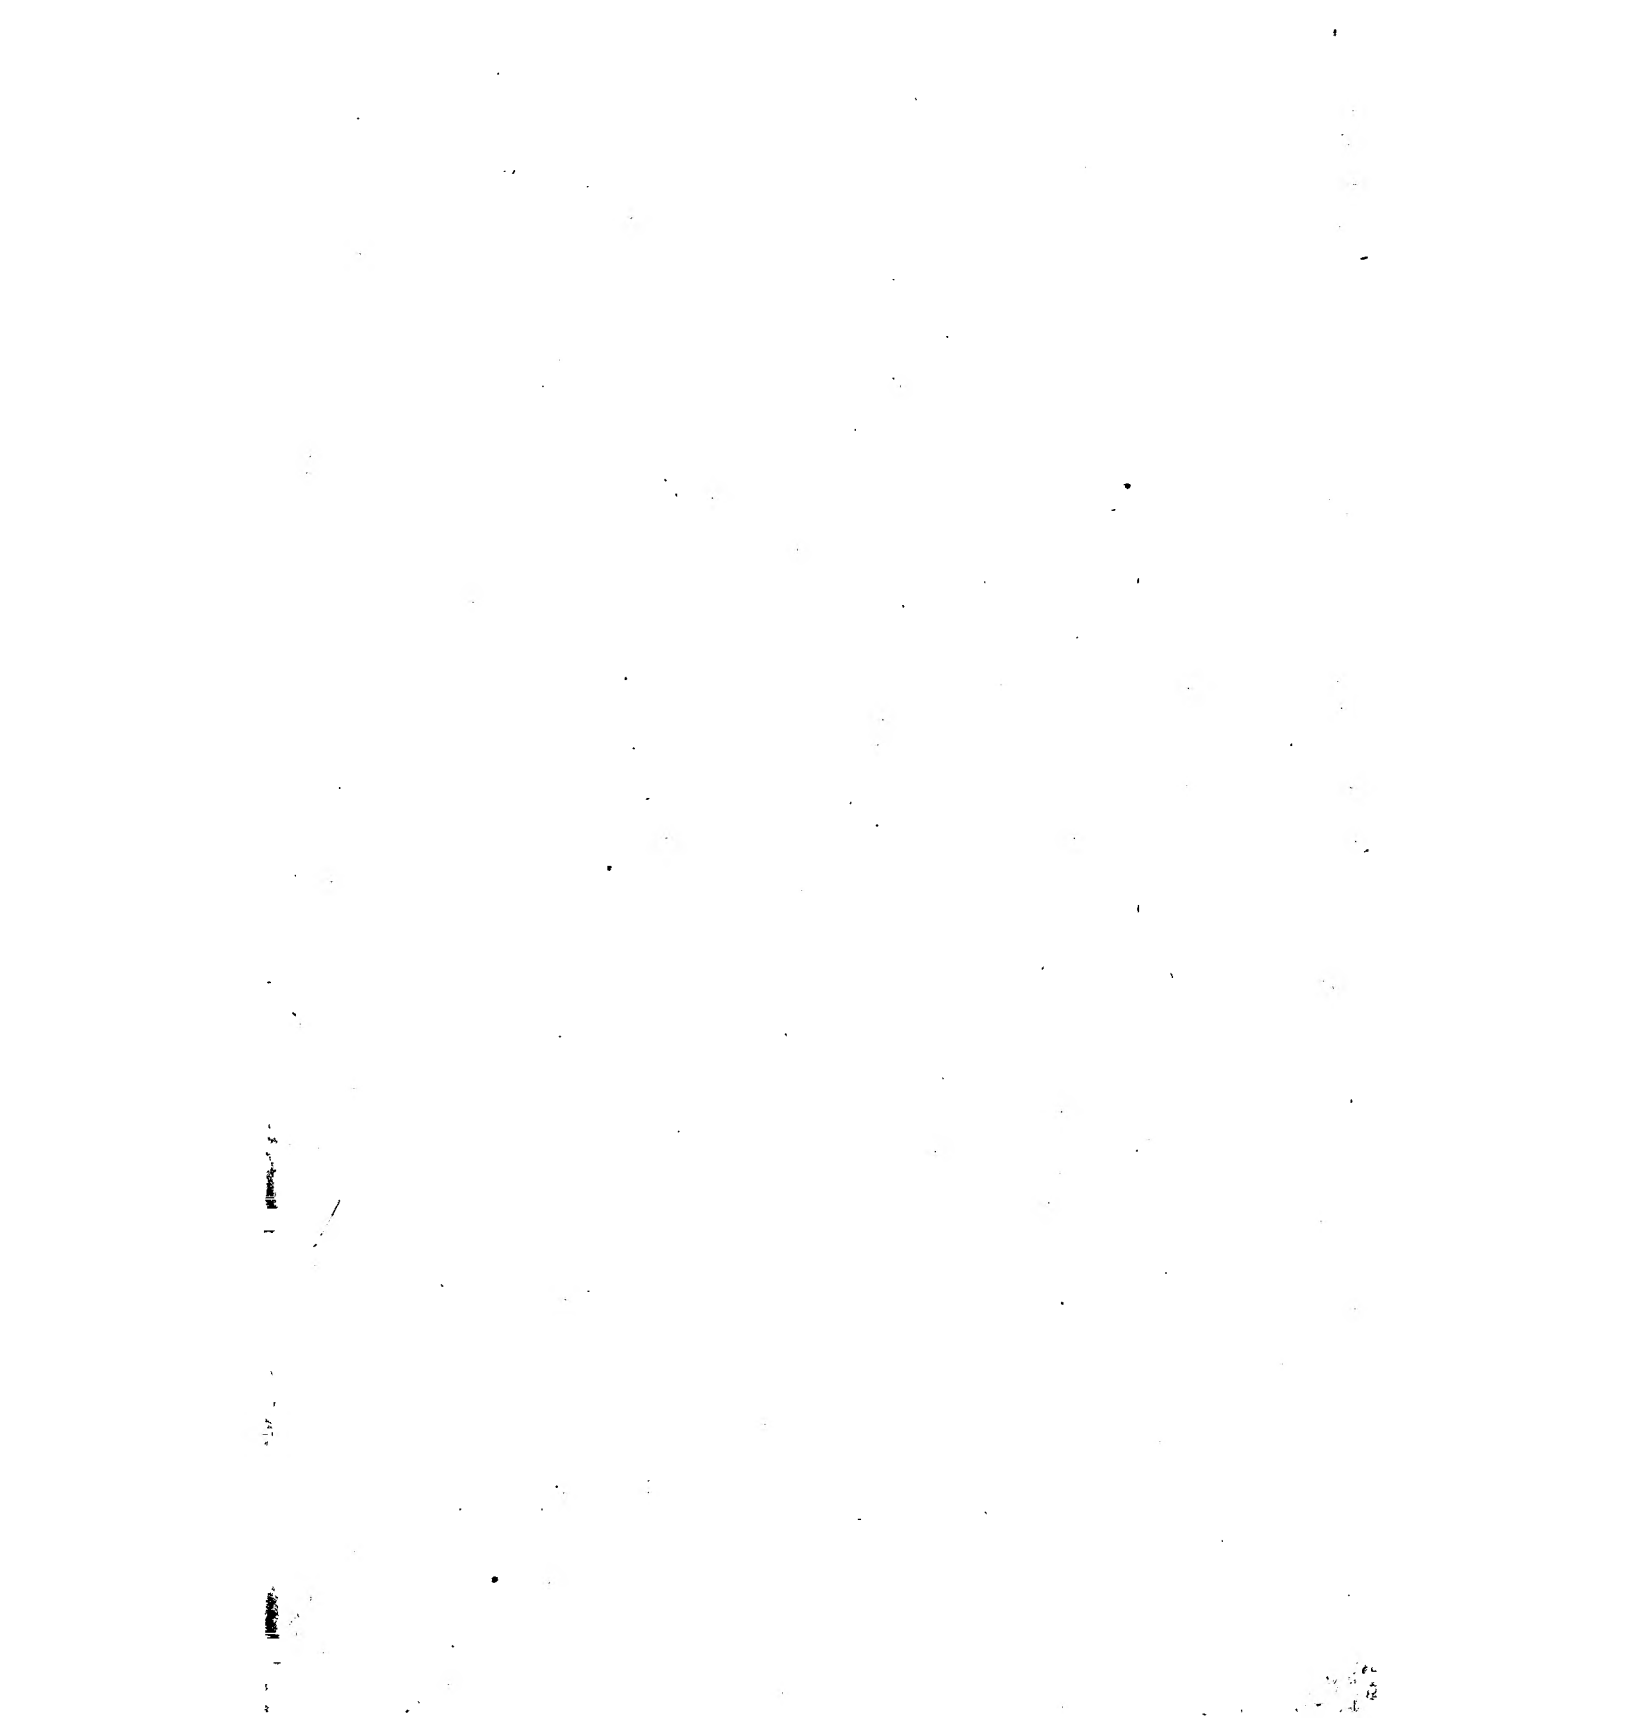

might be well for the man named in the resolution as being entitled to the refund to make a claim. Commissioner Villani said he believed the subject a debatable one, and requested that the matter be laid over for two weeks, which was agreed upon.

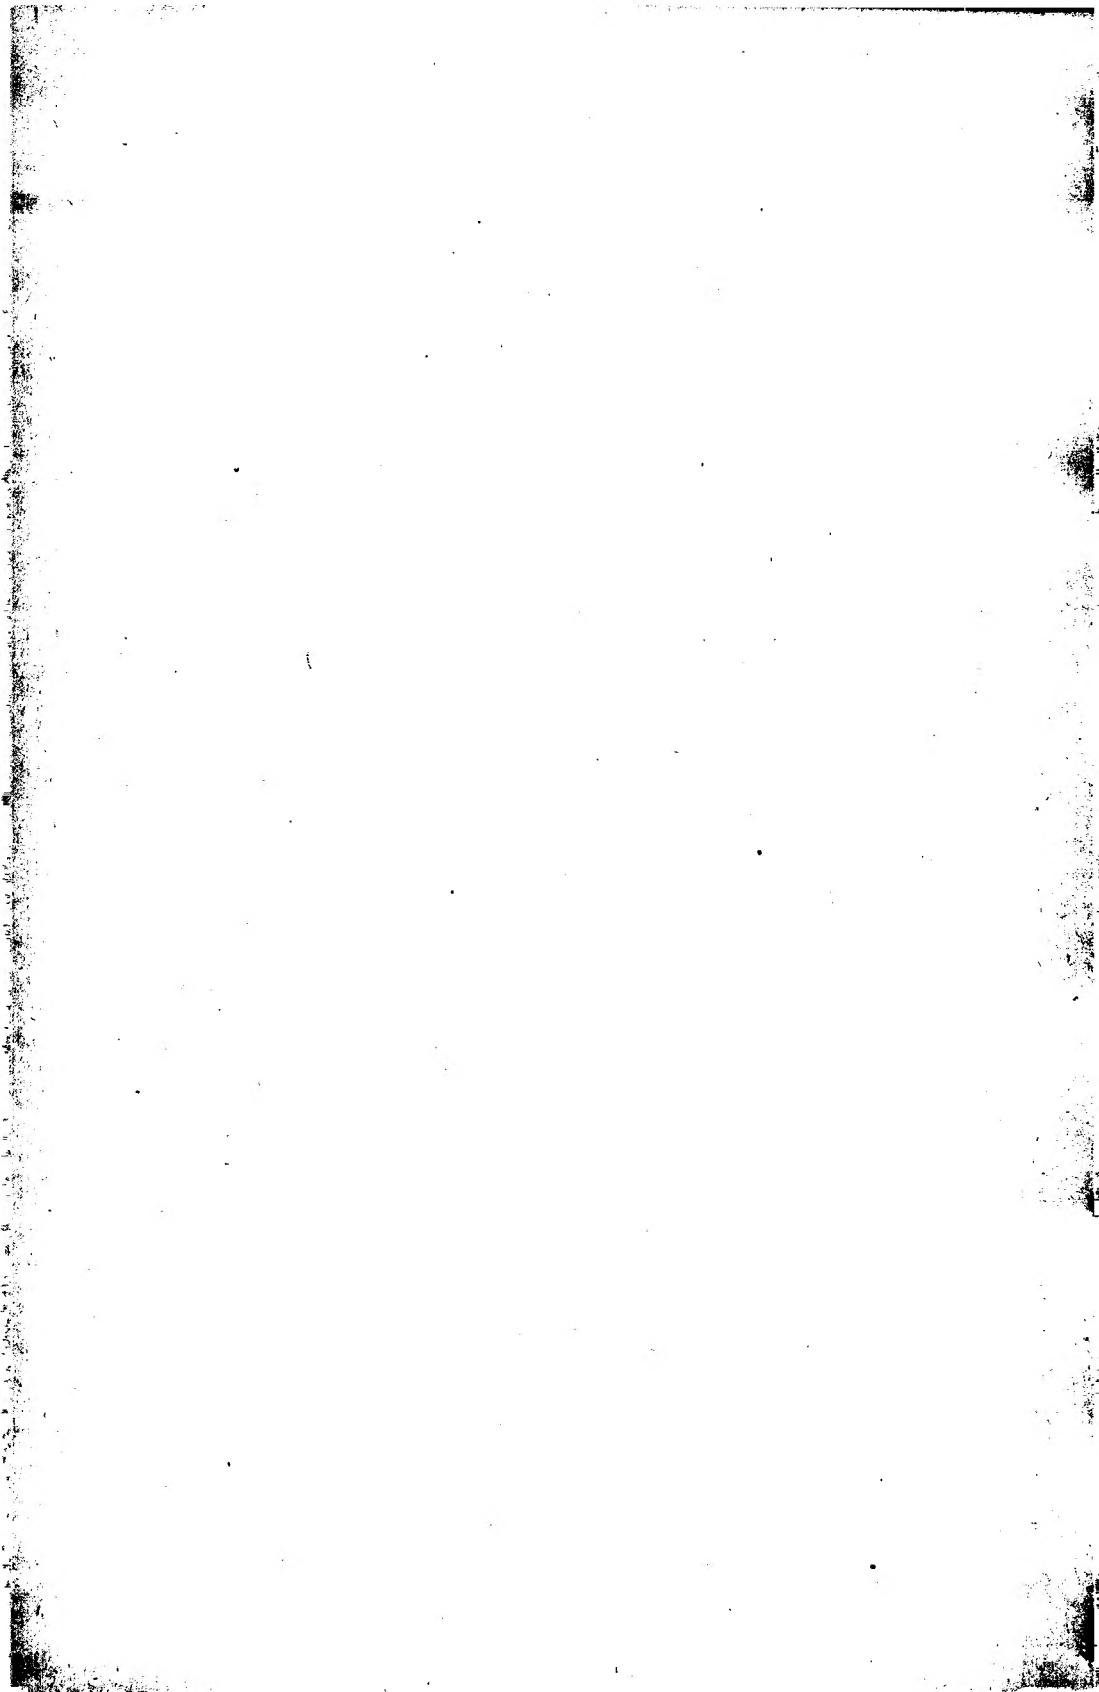

Commissioner Villani: I move we adjourn.

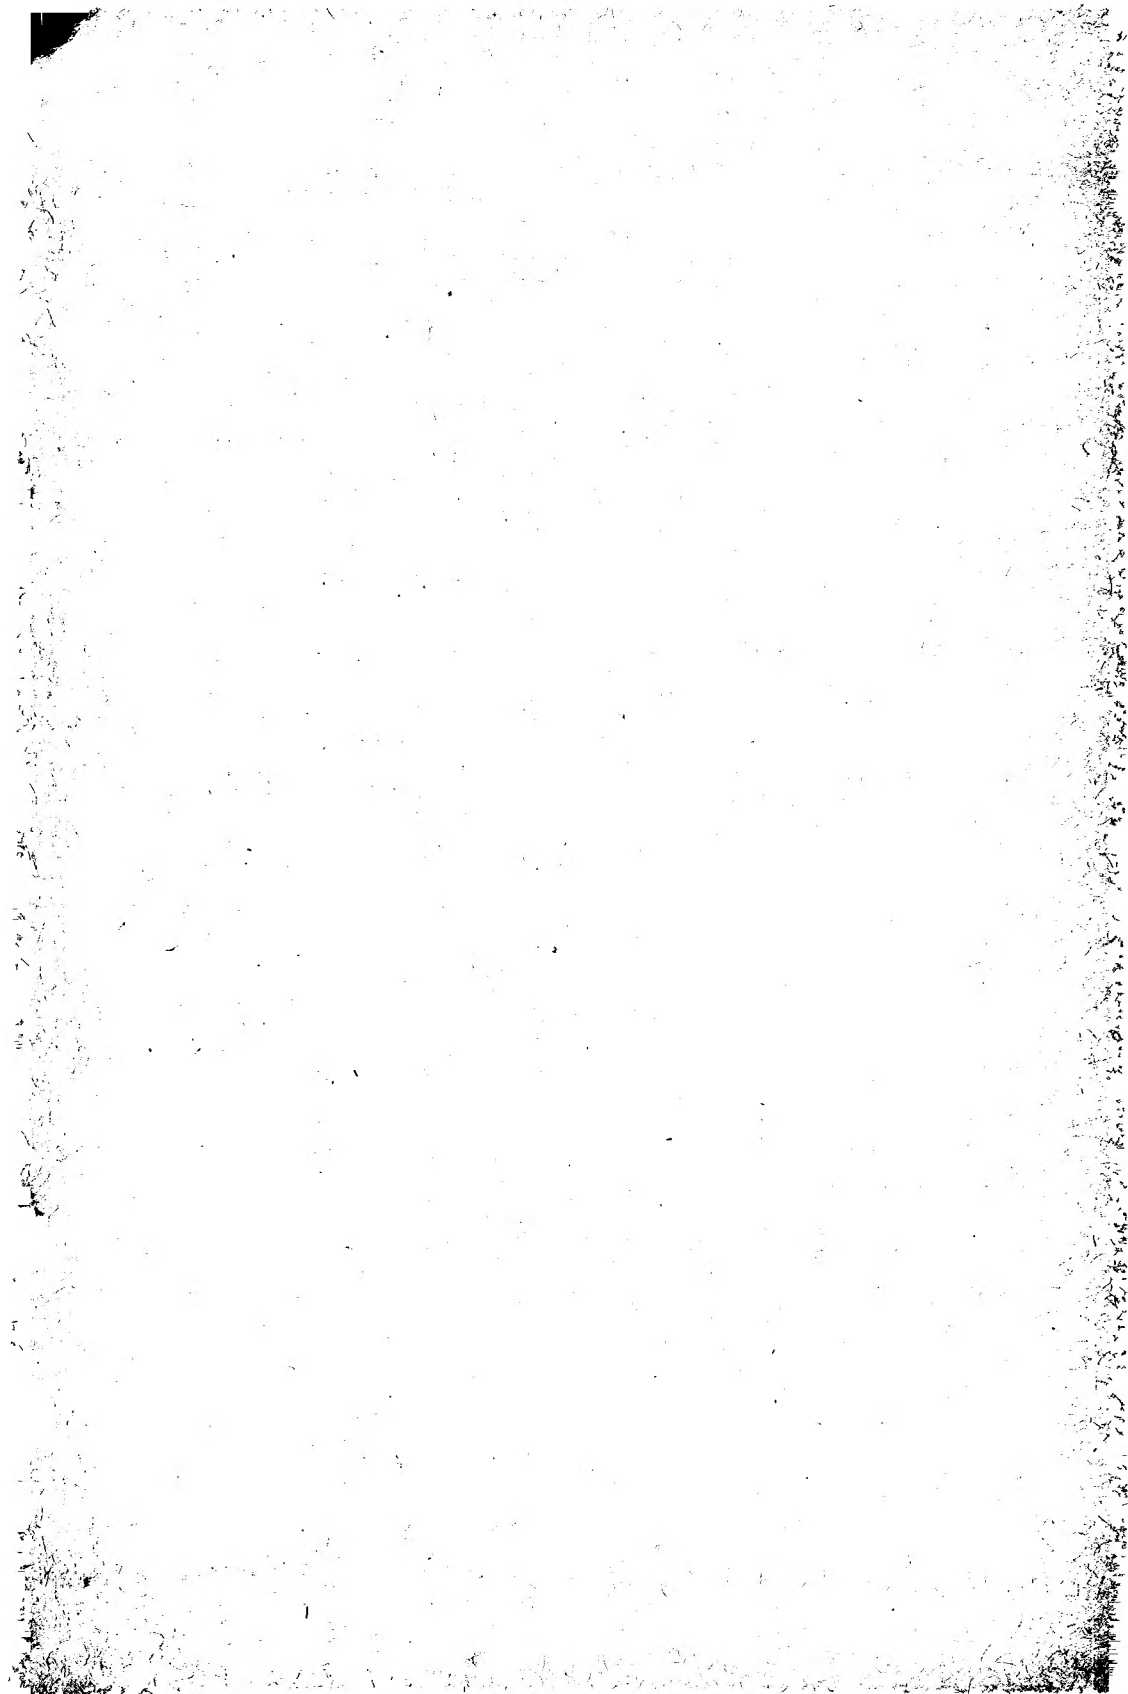

Commissioner Brady: I second it.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Ellenstein, Keenan, Villani, Mayor Murphy.
